

Tuberculosis Infection Control in the Era of Expanding HIV Care and Treatment

Author: Centers for Disease Control and Prevention
International Union Against Tuberculosis and Lung Disease (The Union) Stop TB Partnership

Publication Date: 2006

Format: Guideline

Physical Description: 87 p.: col., ill.; annexes, gloss., refs., tables.

Language: English

Abstract:

Addendum to WHO "Guidelines for the Prevention of Tuberculosis in Health Care Facilities in Resource-Limited Settings, 1999" The goal of this addendum is to help management and staff minimize the risk of TB transmission at facilities in resource-limited settings in which HIV-infected persons receive diagnosis, care, treatment, and/or support, and settings in which there is a high prevalence of HIV infection, both known and undiagnosed.
